| | No soldiers were of landing field which | was in poor | condition. | runway or taxiwa | y was seen on t | ae |
| 2. | North of the field there were woods and adjacent to them a broad flat area. A settlement and a fence were observed at the southmest edge of the field. Several types of practice targets were seen in the area which was apparently an infantry training field. About 10 soldiers who were red-bordered black and black-bordered black epaulets were seen in the barracks on the training field. | | | | | |
